Dear Stan,

Reference my letter dated 24 November 1960, file no. 6958 requesting temporary cessation of any further commitments etc., on specific outstanding production lists. The attachments reflect the final action required in view of the decision to discontinue the use of the PC201, PC204 and PC210 radan sets.

It is to be noted that production list 60-5 is excluded from the attachments. The units requested on referenced production list are test equipment still required for the PC212 radan sets. These items are to be delivered to WRAMA unless otherwise directed.

If there are any discrepancies in undelivered quantities being cancelled request we be advised of shipping orders and other pertinent information in order that further research may be accomplished.

Sincerely,
